Why Choose Igeeks Technologies

Differentiators that set us apart in medical thesis and research support

Plagiarism-Free Guarantee

Strict quality control ensuring original content with Turnitin reports below 10%

Medical Domain Experts

Academic & clinical insight from experienced healthcare professionals

Data-Driven Analysis

Robust statistical analysis using SPSS, R, Python, and GraphPad

On-Time Delivery

Strict timelines with multiple revision cycles to meet all deadline requirements

PAN India Services

Online & offline support available nationwide with dedicated client service

Complete Confidentiality

Ethical compliance with strict data protection and client privacy

★ Over 10+ years of experience with 50+ universities collaborating to provide superior medical thesis support

Who Can Benefit

Target audience for our academic support services

Medical Students

MBBS, MD, MS, MDS, BDS students

PhD Scholars

Biomedical & health sciences research

Healthcare Practitioners

Practicing doctors, clinicians, faculty

Allied Health

Nursing, pharmacy, physiotherapy students

Researchers & Writers

Biomedical researchers & scientific writers

Frequently Asked Questions

Common questions about our medical thesis and research guidance services

Who can avail of your medical thesis writing services?

Our services are available for MBBS, MD, MS, MDS, BDS, Nursing & PhD scholars, as well as practicing doctors and biomedical researchers.

Do you provide plagiarism-free thesis content?

Absolutely! We provide 100% Original Content checked with Turnitin / Grammarly, with plagiarism reports provided.

Do you help with literature review and data analysis?

Yes, including literature review from PubMed, Scopus, UGC and statistical analysis (SPSS, R, Excel) with results interpretation.

Is the process confidential?

100% Confidentiality of topic, data & documents throughout the entire service process.

Do you help in selecting a thesis or research topic?

Yes, we help you choose researchable, relevant, and journal-appropriate topics based on your specialization & interests.

What is the typical length of a medical thesis?

Usually 100–160 pages, depending on university/journal guidelines.

Can I get support with journal paper writing and publication?

Yes, we offer paper writing in Scopus, UGC, PubMed formats, along with formatting, referencing, submission and handling reviewer comments.

How long does it take to complete a thesis?

⌚ 30–45 days on average. Expedited options are available upon request.
